

SAVE OUR HEROES[®]

ADVOCATING FOR MILITARY JUSTICE REFORM AND EQUAL JUSTICE FOR ALL

*** PRESS RELEASE ***

1 October 2018

Our nation is currently witnessing the evisceration of the presumption of innocence and the severe reduction of due process and constitutional protections. Sadly, and for some time, our service members have been experiencing these same losses when certain allegations surface. The presumption of innocence has been replaced by the presumption of guilt, and changes to the military justice system has made the task of defending oneself nearly impossible in certain cases that have garnered significant news media attention.

Service members who face false allegations without the presumption of innocence have had their lives and the lives of their families destroyed, and sadly, some have taken their own lives, adding to the already dismal statistic of service member and veteran suicides. Our service members, who sacrifice and sometimes give their lives in defense of our great nation deserve the same due process and constitutional protections that all Americans are afforded.

Save Our Heroes' (SOH) is a 501(c)(3) nonprofit organization founded in 2015, and is devoted to passionately advocating and supporting, U.S. service members and their families, who are facing false allegations, wrongful military justice action, and those who have been wrongfully convicted. SOH, along with similar organizations, works with legislators for common sense military justice reform, and works towards holding those accountable who pervert the military justice system. Our Directors, Advisors, and Volunteers are men and women from a wide variety of professions; including current, former, and retired service members from all branches. You can learn more about SOH, our interests and efforts, by visiting our website, www.saveourheroesproject.org.

Save Our Heroes' asks that you contact your elected representatives and demand legislative reform and accountability for our military heroes' who have earned the right to a fair and equal military justice process. Please feel free to reach out to Save Our Heroes' and share your stories and experiences, so together, we can all work towards a fair and equal military justice system for all servicemen and service women.

Sincerely & Respectfully,

Doug James, COL. (Ret.), USAF
President & Chairman of the Board of Directors
